School Values

Respect
Enthusiasm
Aspiration
Compassion
Honesty

As a right Respecting School all classes create their own classroom charter at the start of the session, reinforcing our school Ethos.

Health and Wellbeing

This foundation of our curriculum. We believe if children feel valued, safe, secure and nurtured then they are able to learn and achieve. Each school year consists of a 'Healthy Start' and 'Healthy Finish' through the learning context of Marvellous Me. We provide opportunities for children to develop and maintain a Growth Mindset, strategies for coping with change, developing resilience, confidence and to understand themselves as learners.

Curriculum Areas

- Social Studies
- Science
- Technologies
- Music and P.E Specialists
- Expressive Arts
- 1+2 Languages French and Makaton
- Religious and Moral Education

Curriculum Rationale

"Inspire Aspire"

Our Curriculum is designed around what we want our children;

- To Be
- To Know and Understand
- To Do

"Small and Mighty"

Achievements and Life Skills

Achievements are celebrated weekly during our responsibility times. House captains award house points based on our achievements rubric.

Staff can also award house points for pupil achievements within school

Interdisciplinary Learning

Children experience at least 8 contexts for learning throughout their year. The contexts for learning follow a three year cycle. We build on our core skill foundations in health and wellbeing, literacy and numeracy through our wide range of rich learning contexts and learning experiences, providing children with a breadth and depth to their knowledge and understanding.

Learning Community

Our learning community consists of everyone who has a stake hold in our children's learning. We actively encourage partnerships with our learning community to enhance the learning experience of all of our children

Ethos and Life of the School

All our children are members of one of our responsibility groups that have focussed links to Eco and Global Goals. There are also opportunities for children to participate and lead in groups such as :- Pupil Council , Digital Leaders, STEM, and sports.
